# Wolveshood

Visual Identity - Handmade dog collars and leashes

"Members of Wolveshood team were surrounded by their four legged friends as they embarked on everyday adventures while growing up in the Czech country side. While we were climbing mountains, camping outside, or at home watching TV, those dogs were there as our partners, our guardians, our family. We want to combine our two favorite things with dogs and creating new products. Wolveshood was created to celebrate the relationship between a dog and his people."
