

mmcité +
gift item / salt + pepper shaker

idea:
tradition (porcelain, traditional methods)
vs. present (polygons, parametric design)

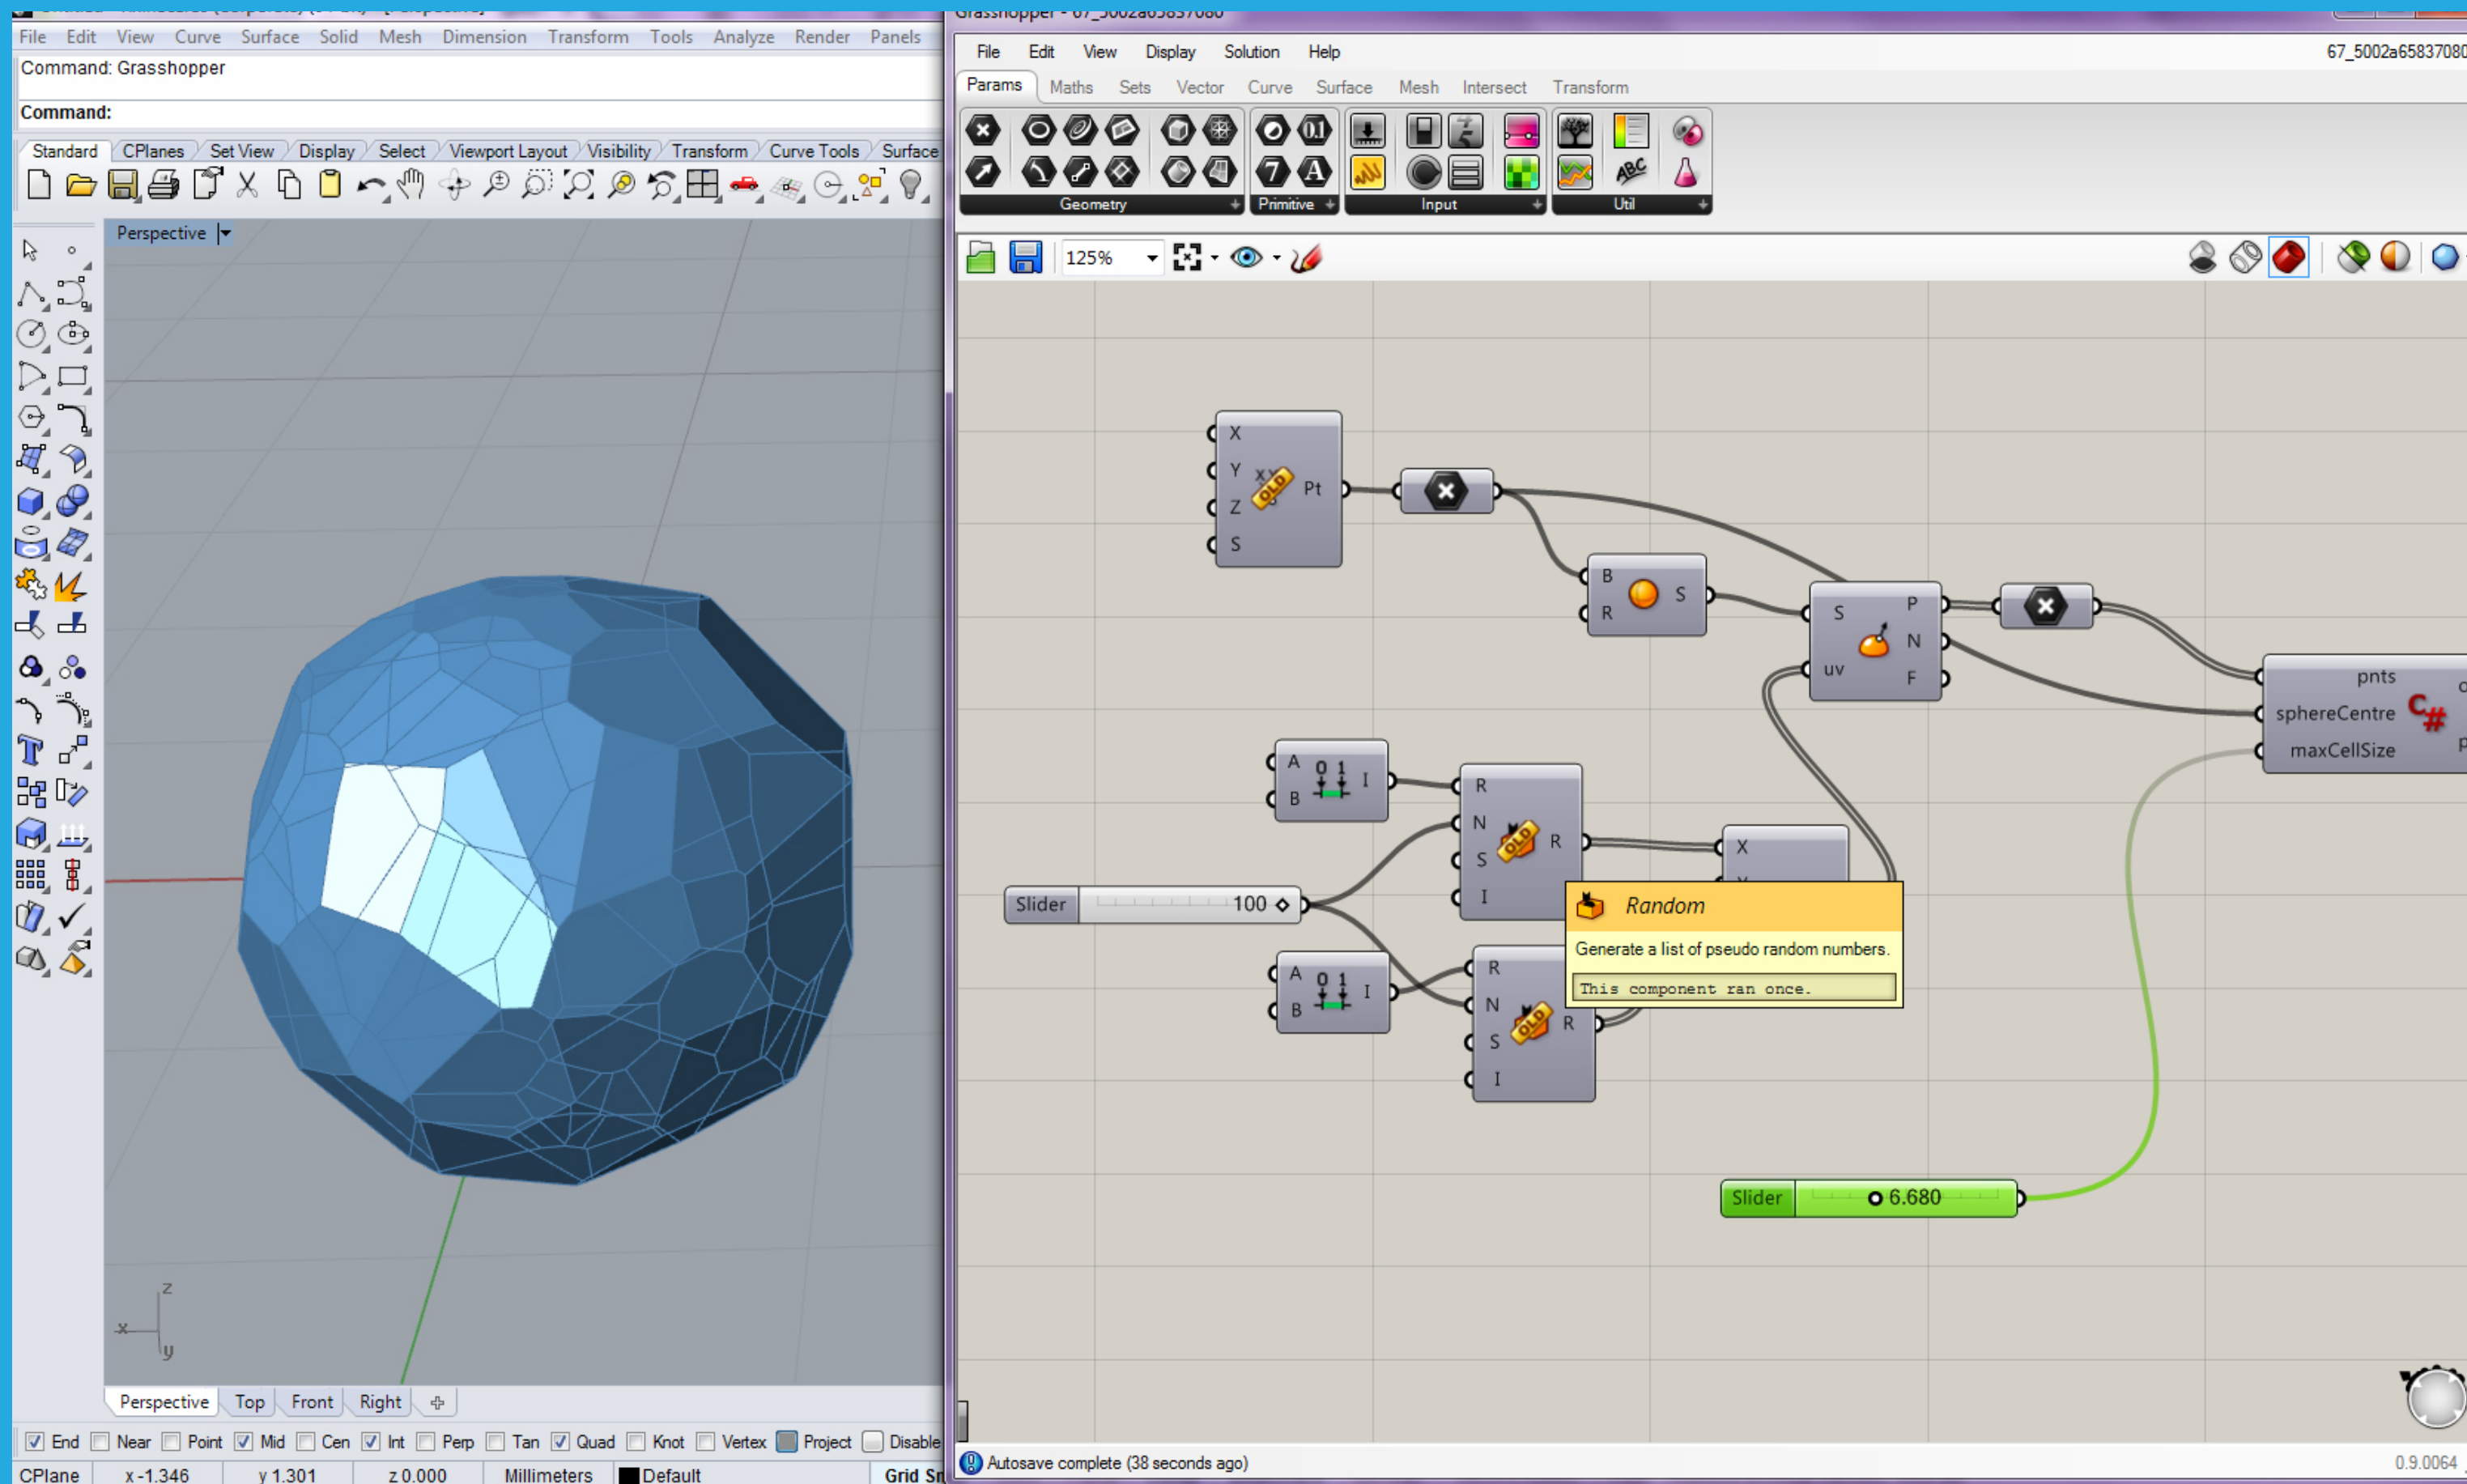

process:

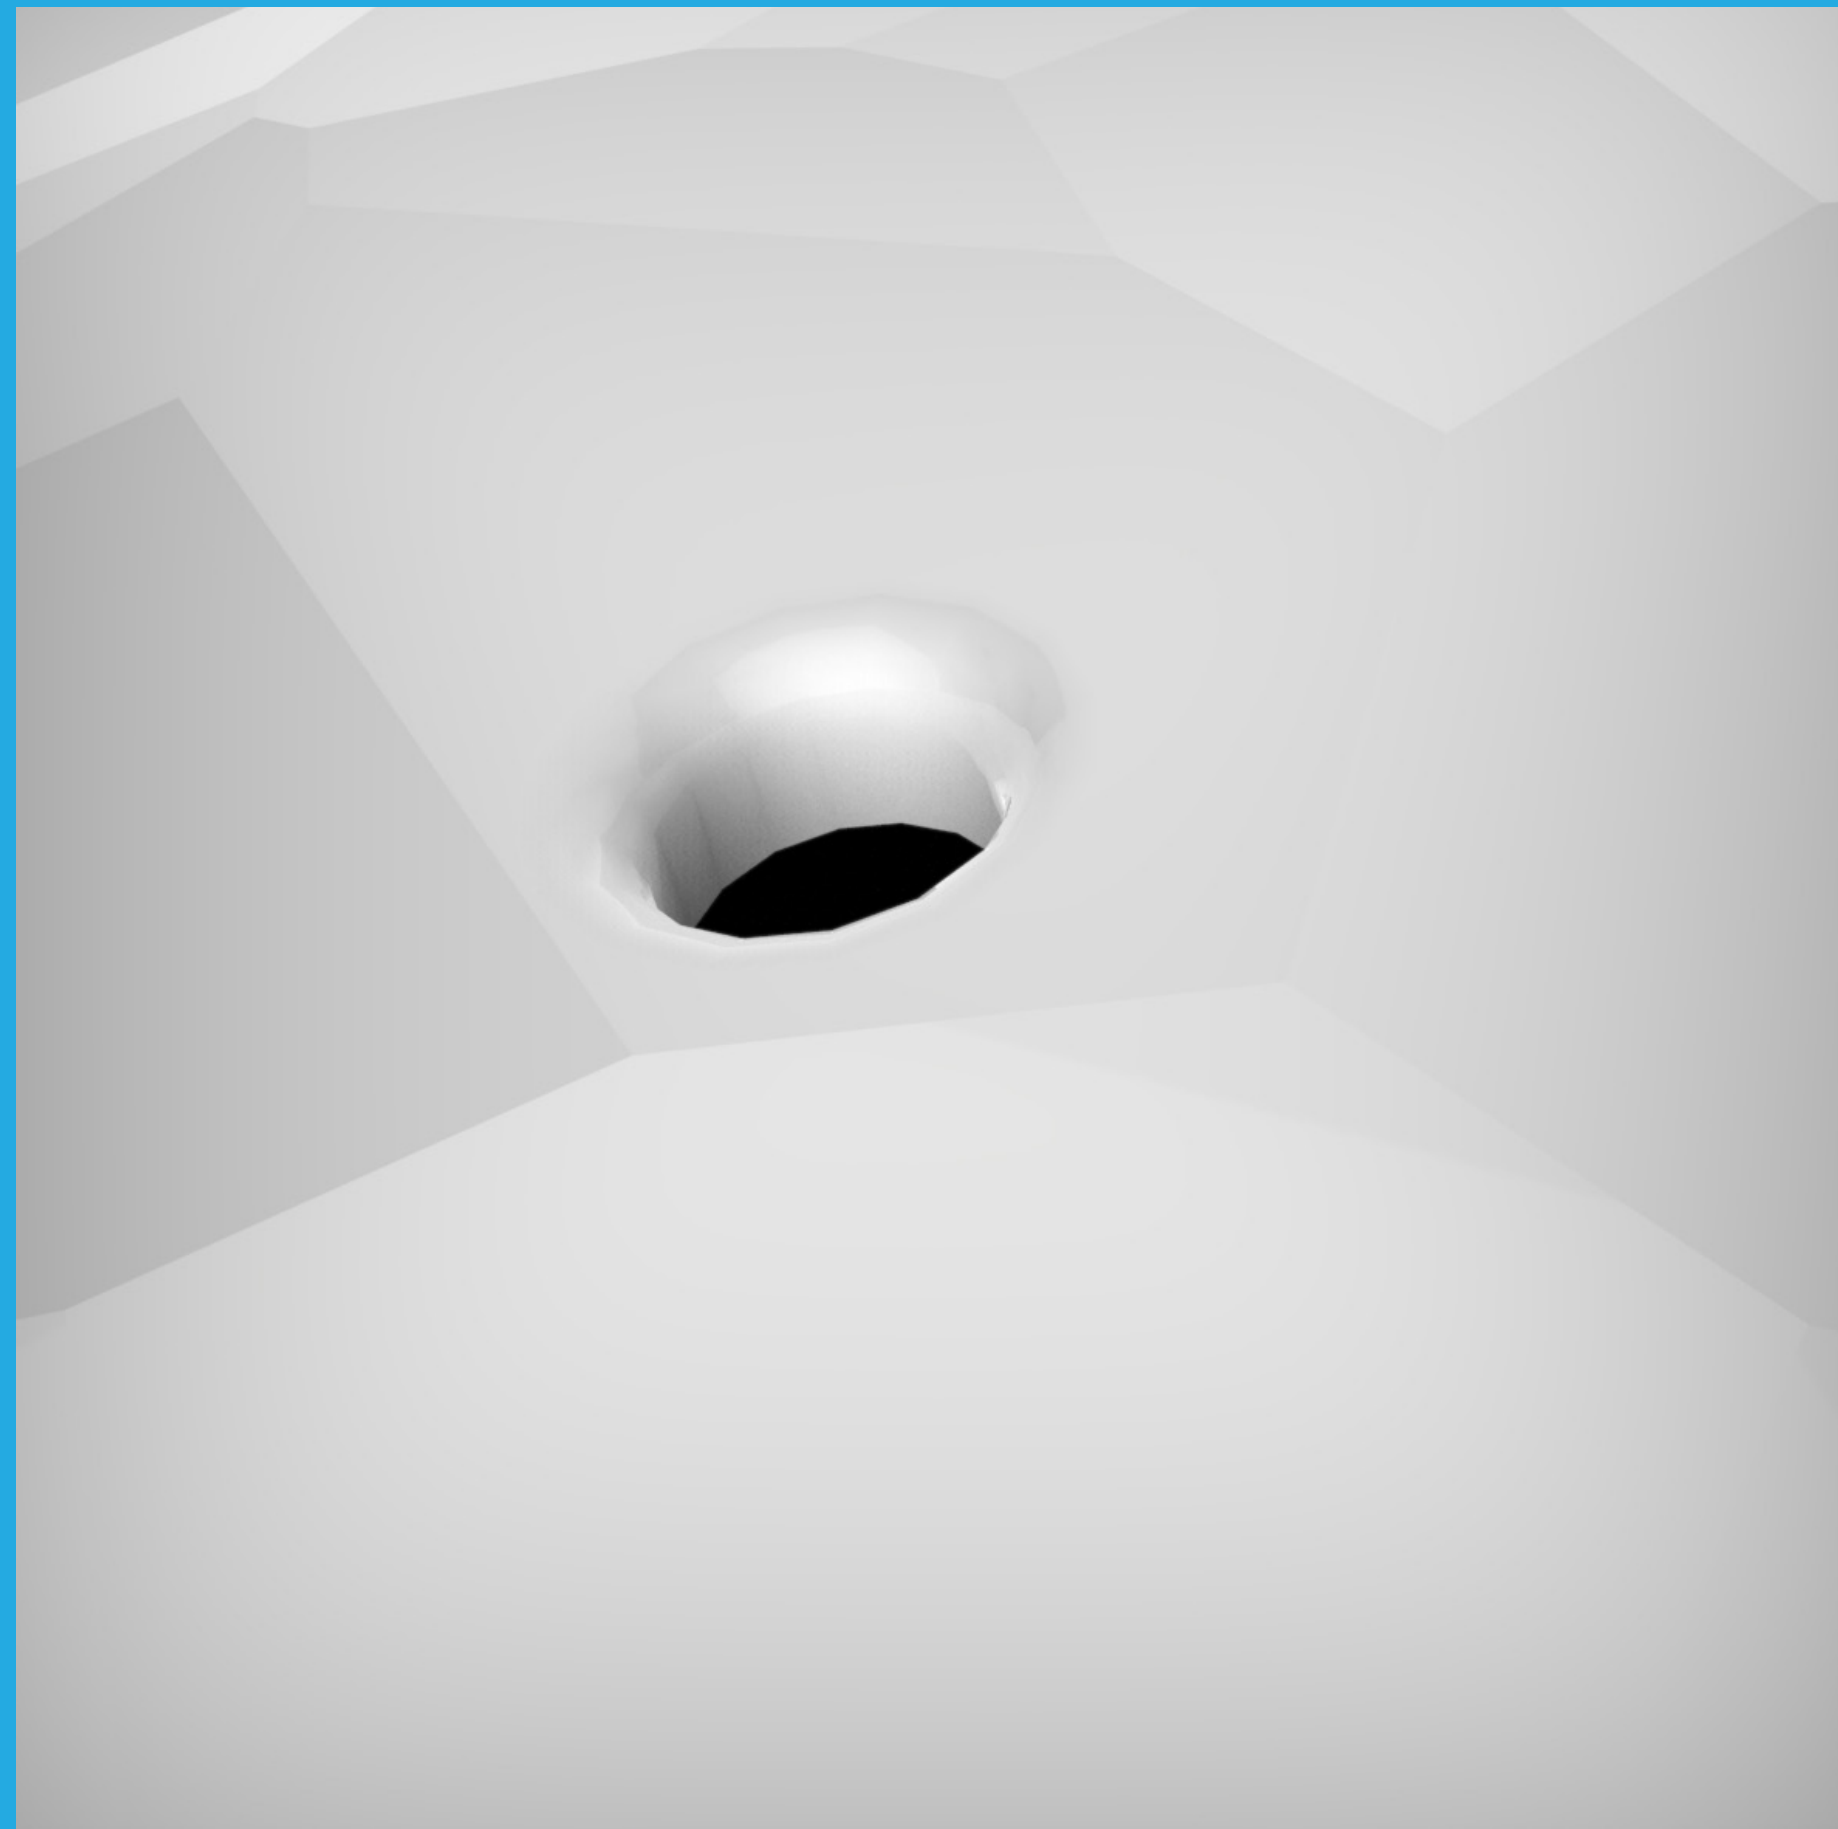

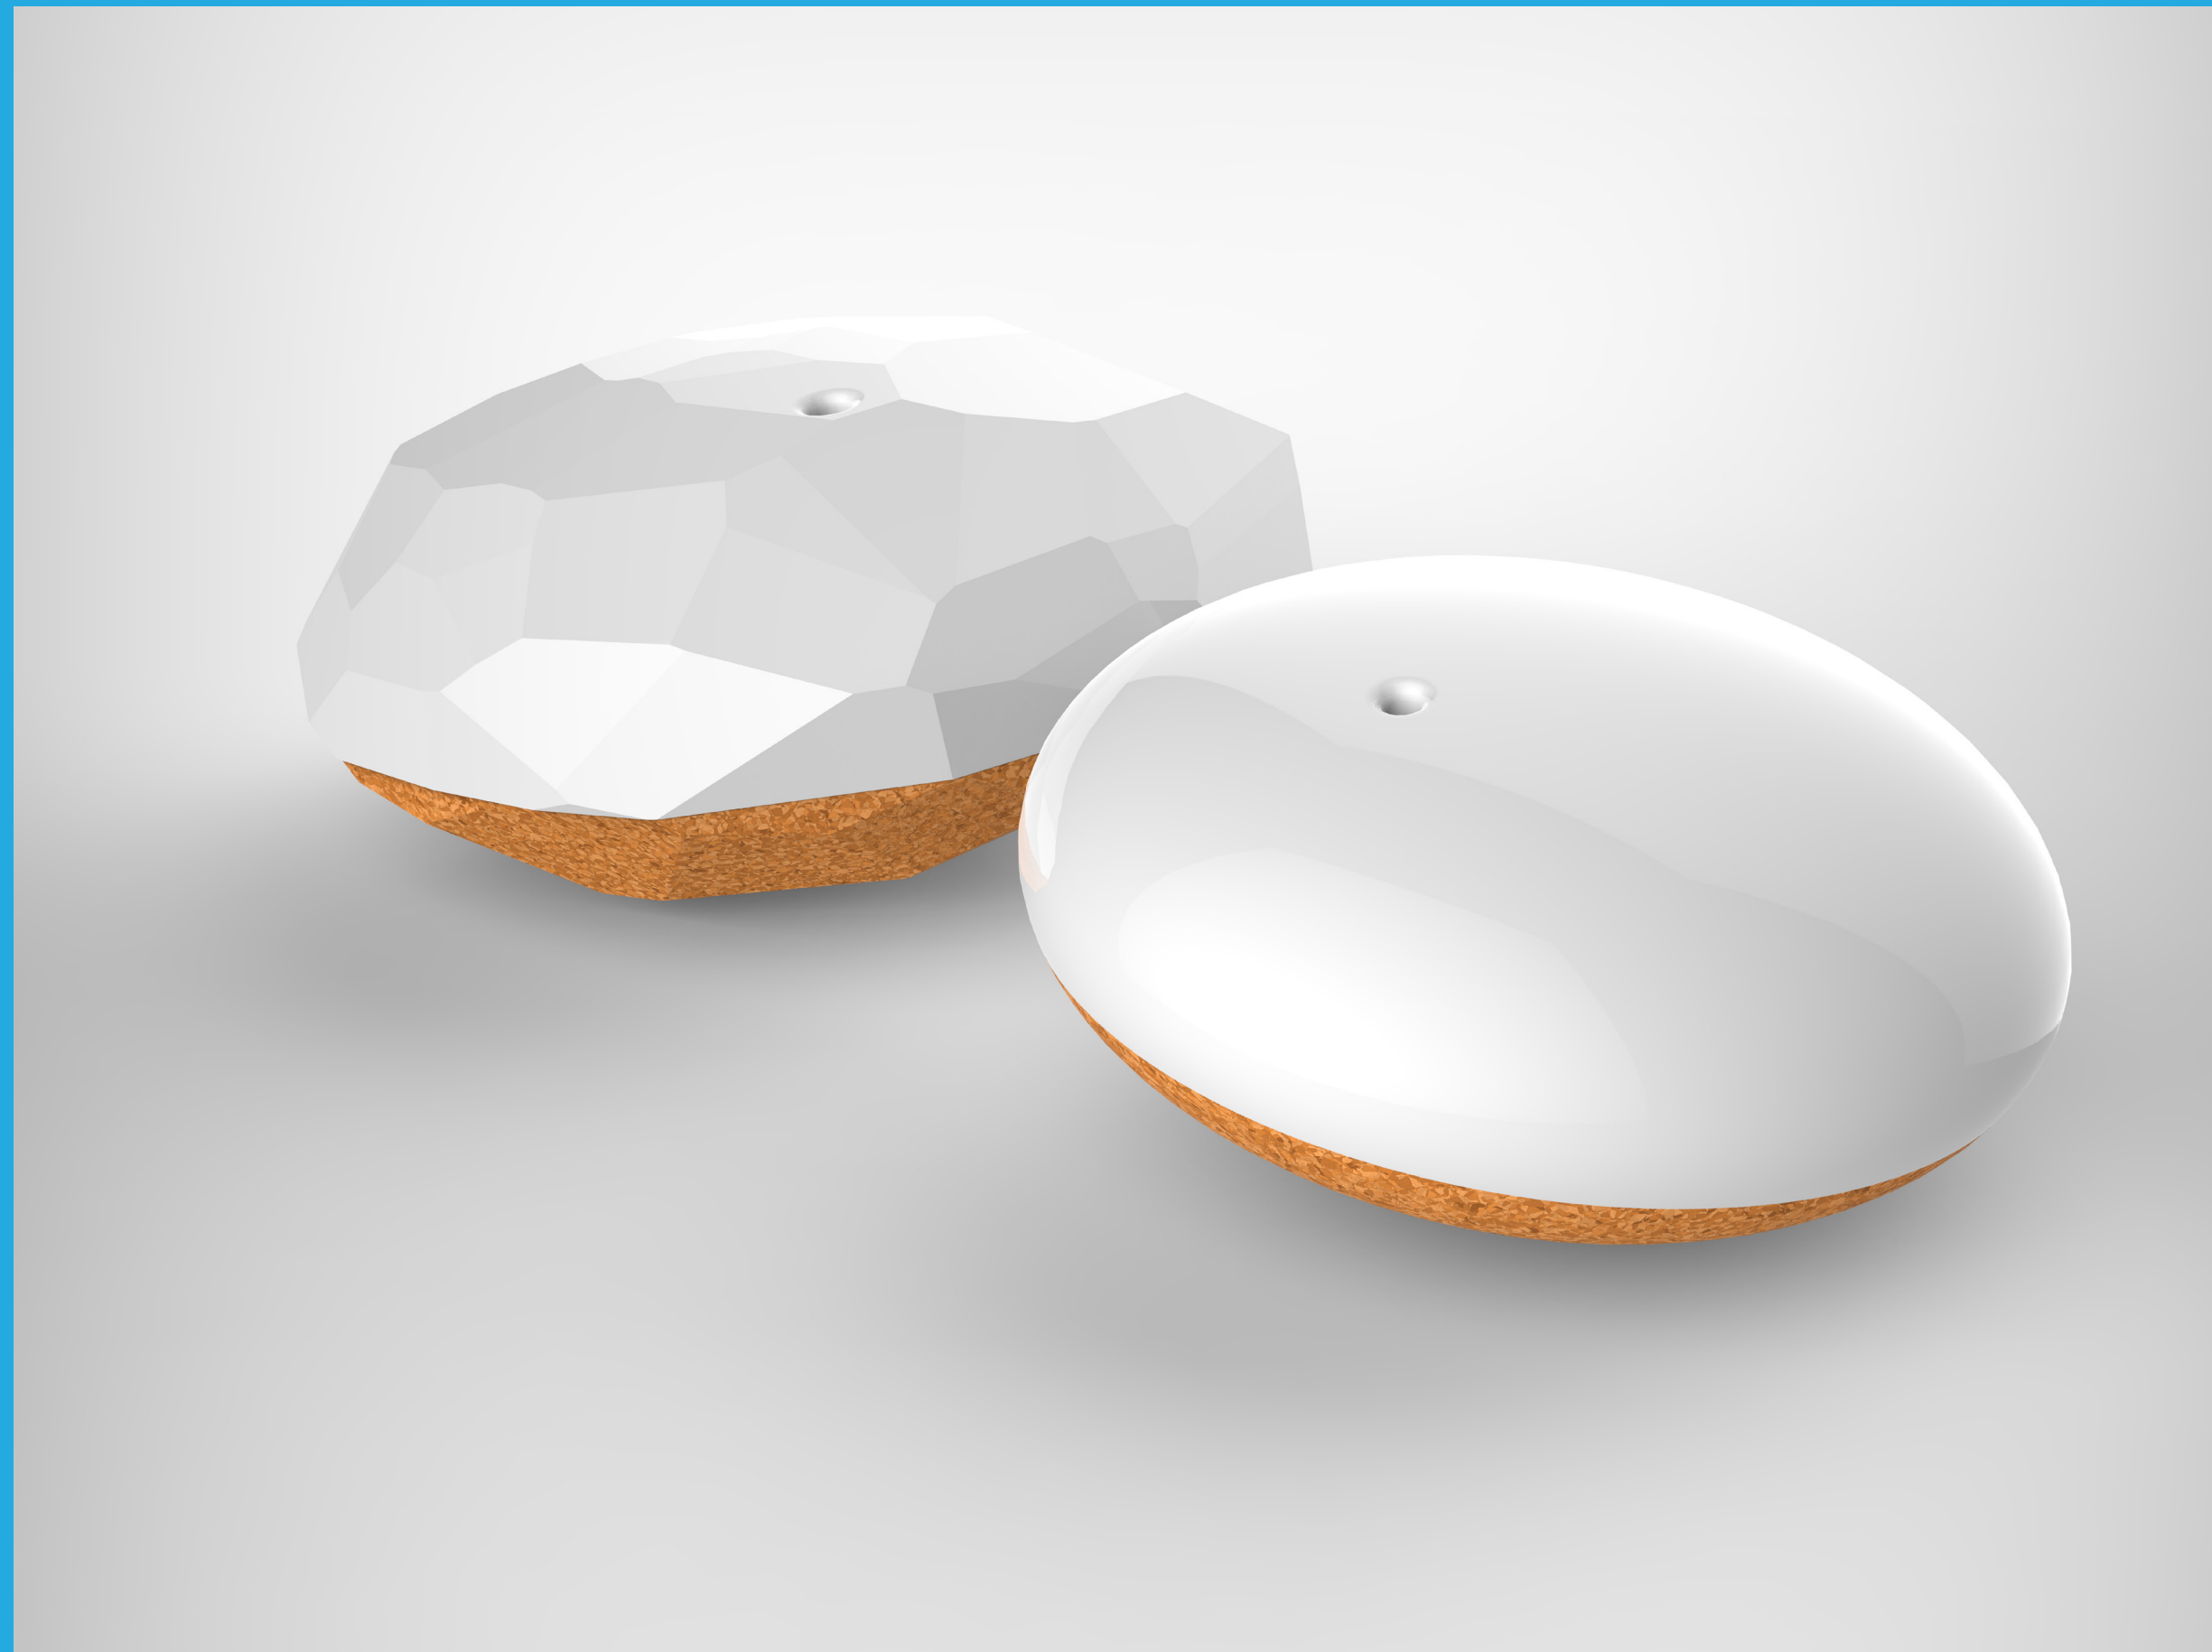

primary shape (sphere, ellipsoid) + inspired by mmcité logo

work with proportions and ratios (volume, dimensions)

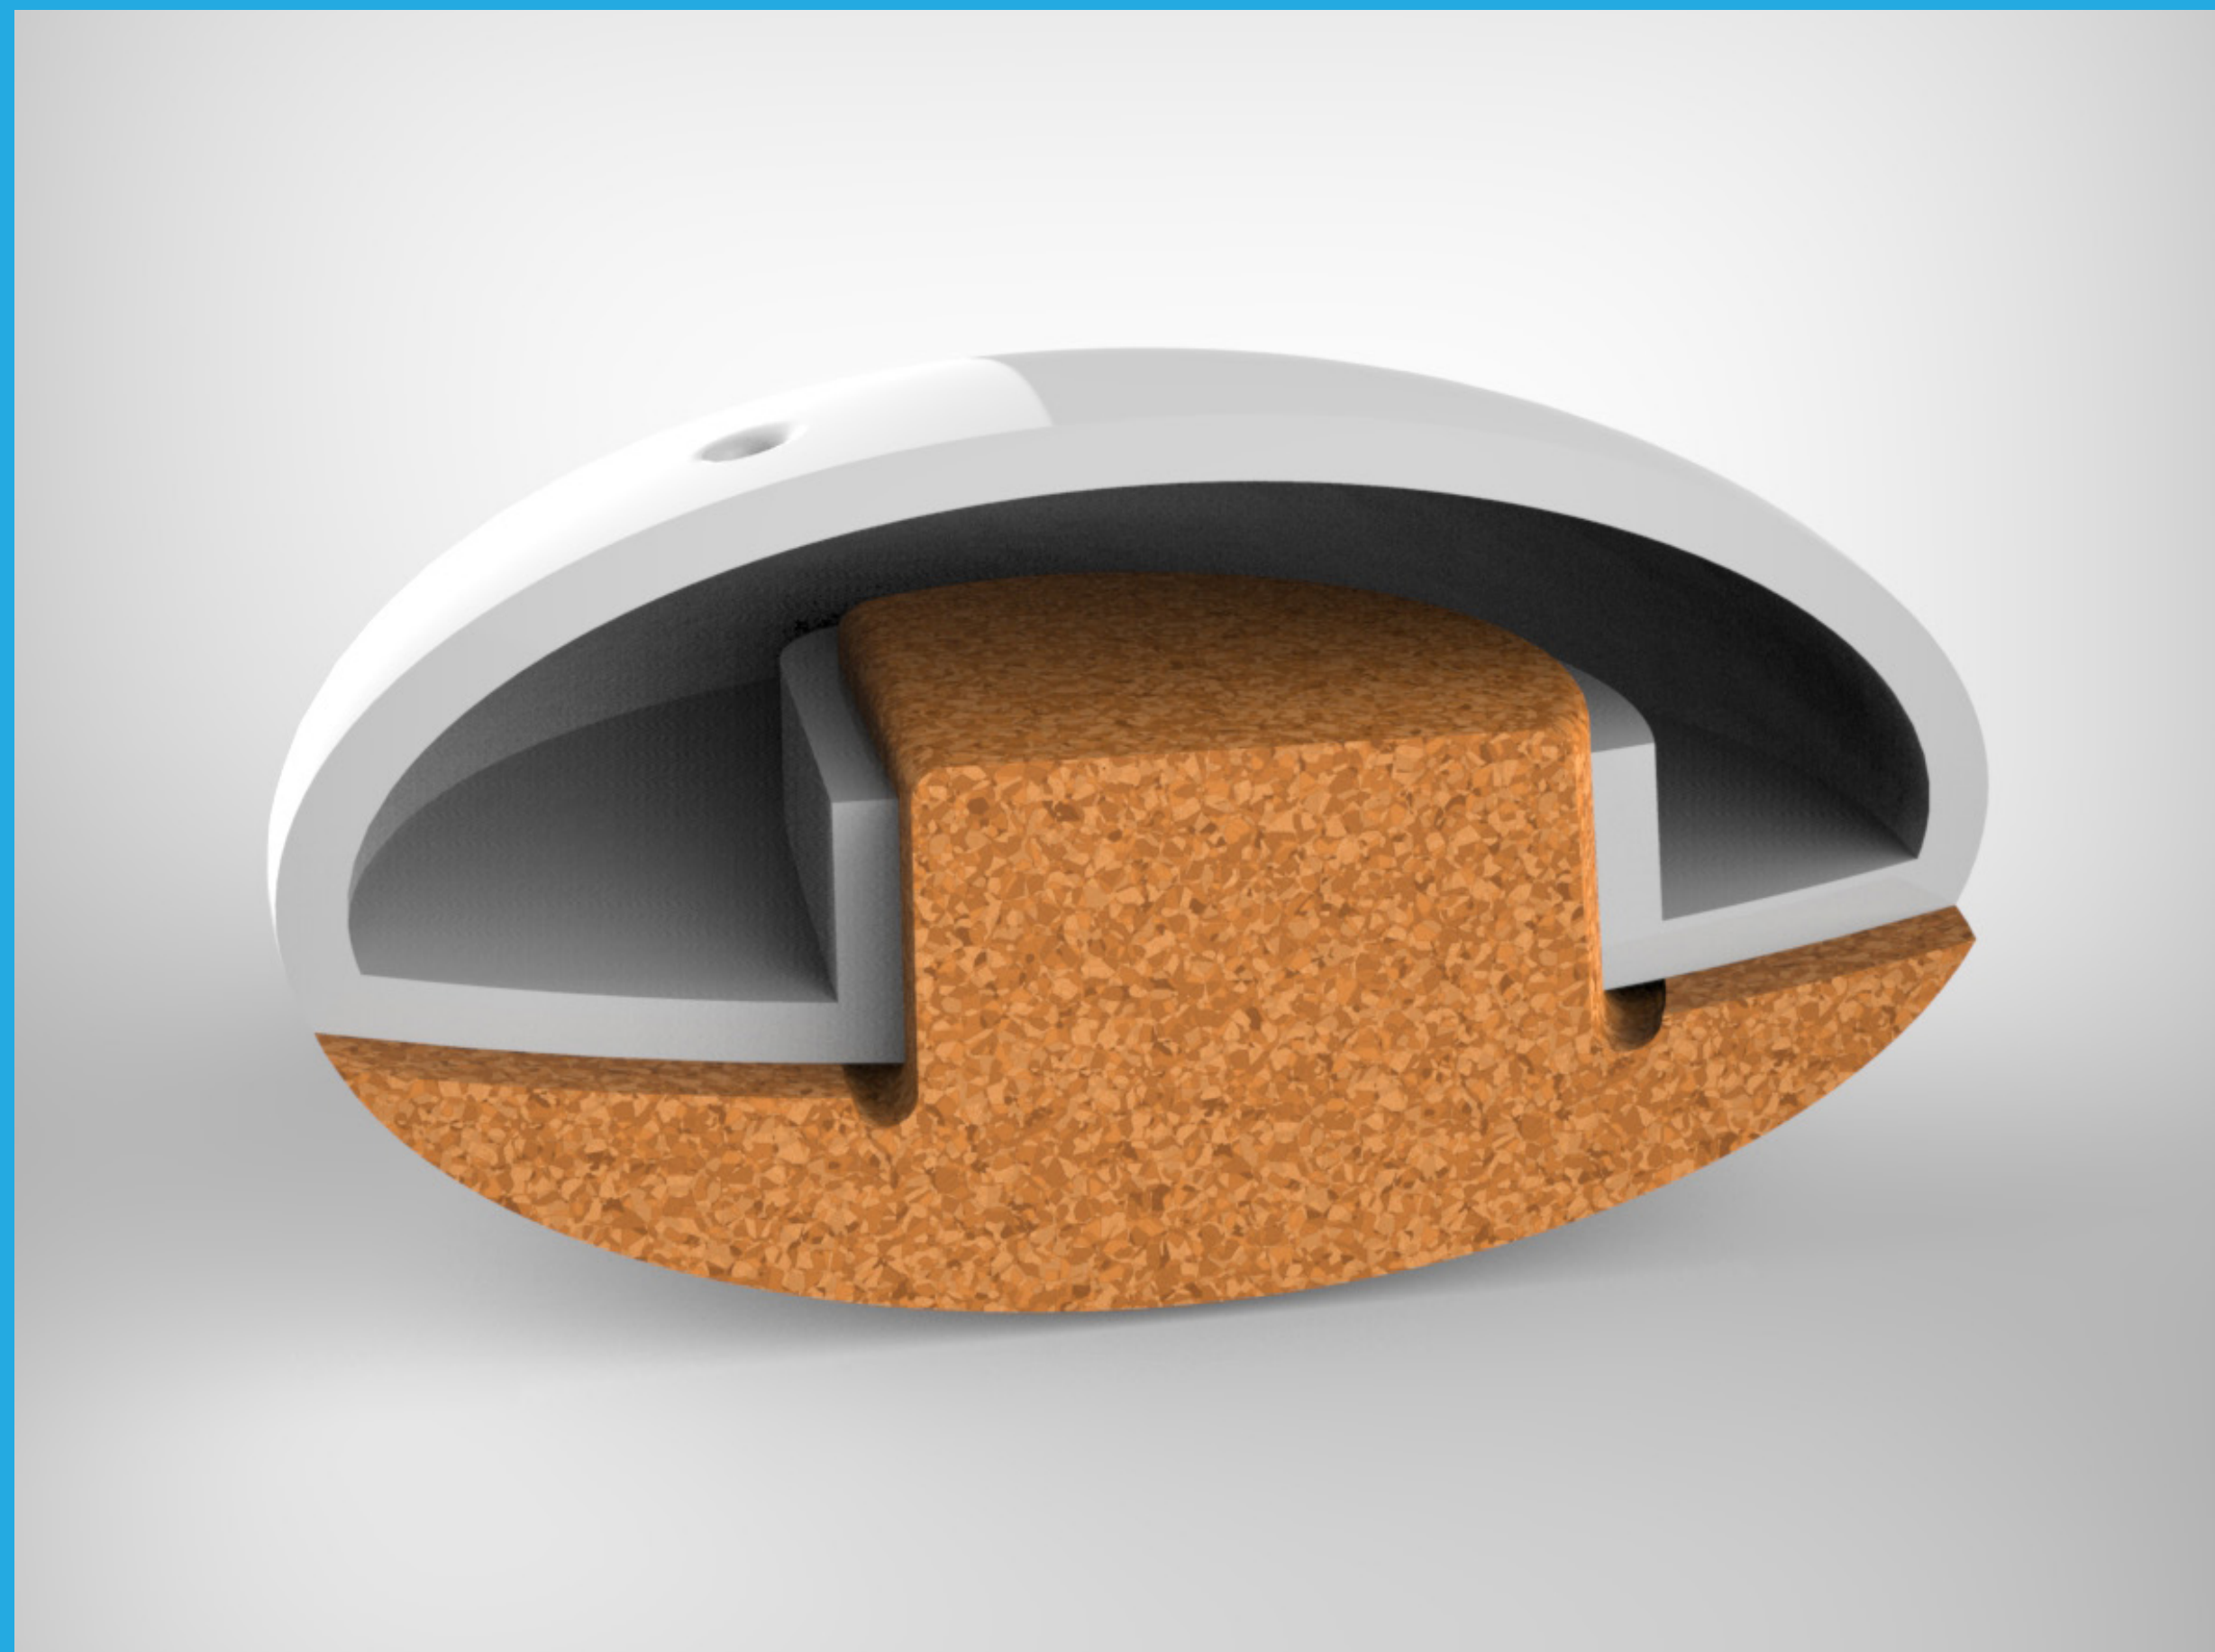

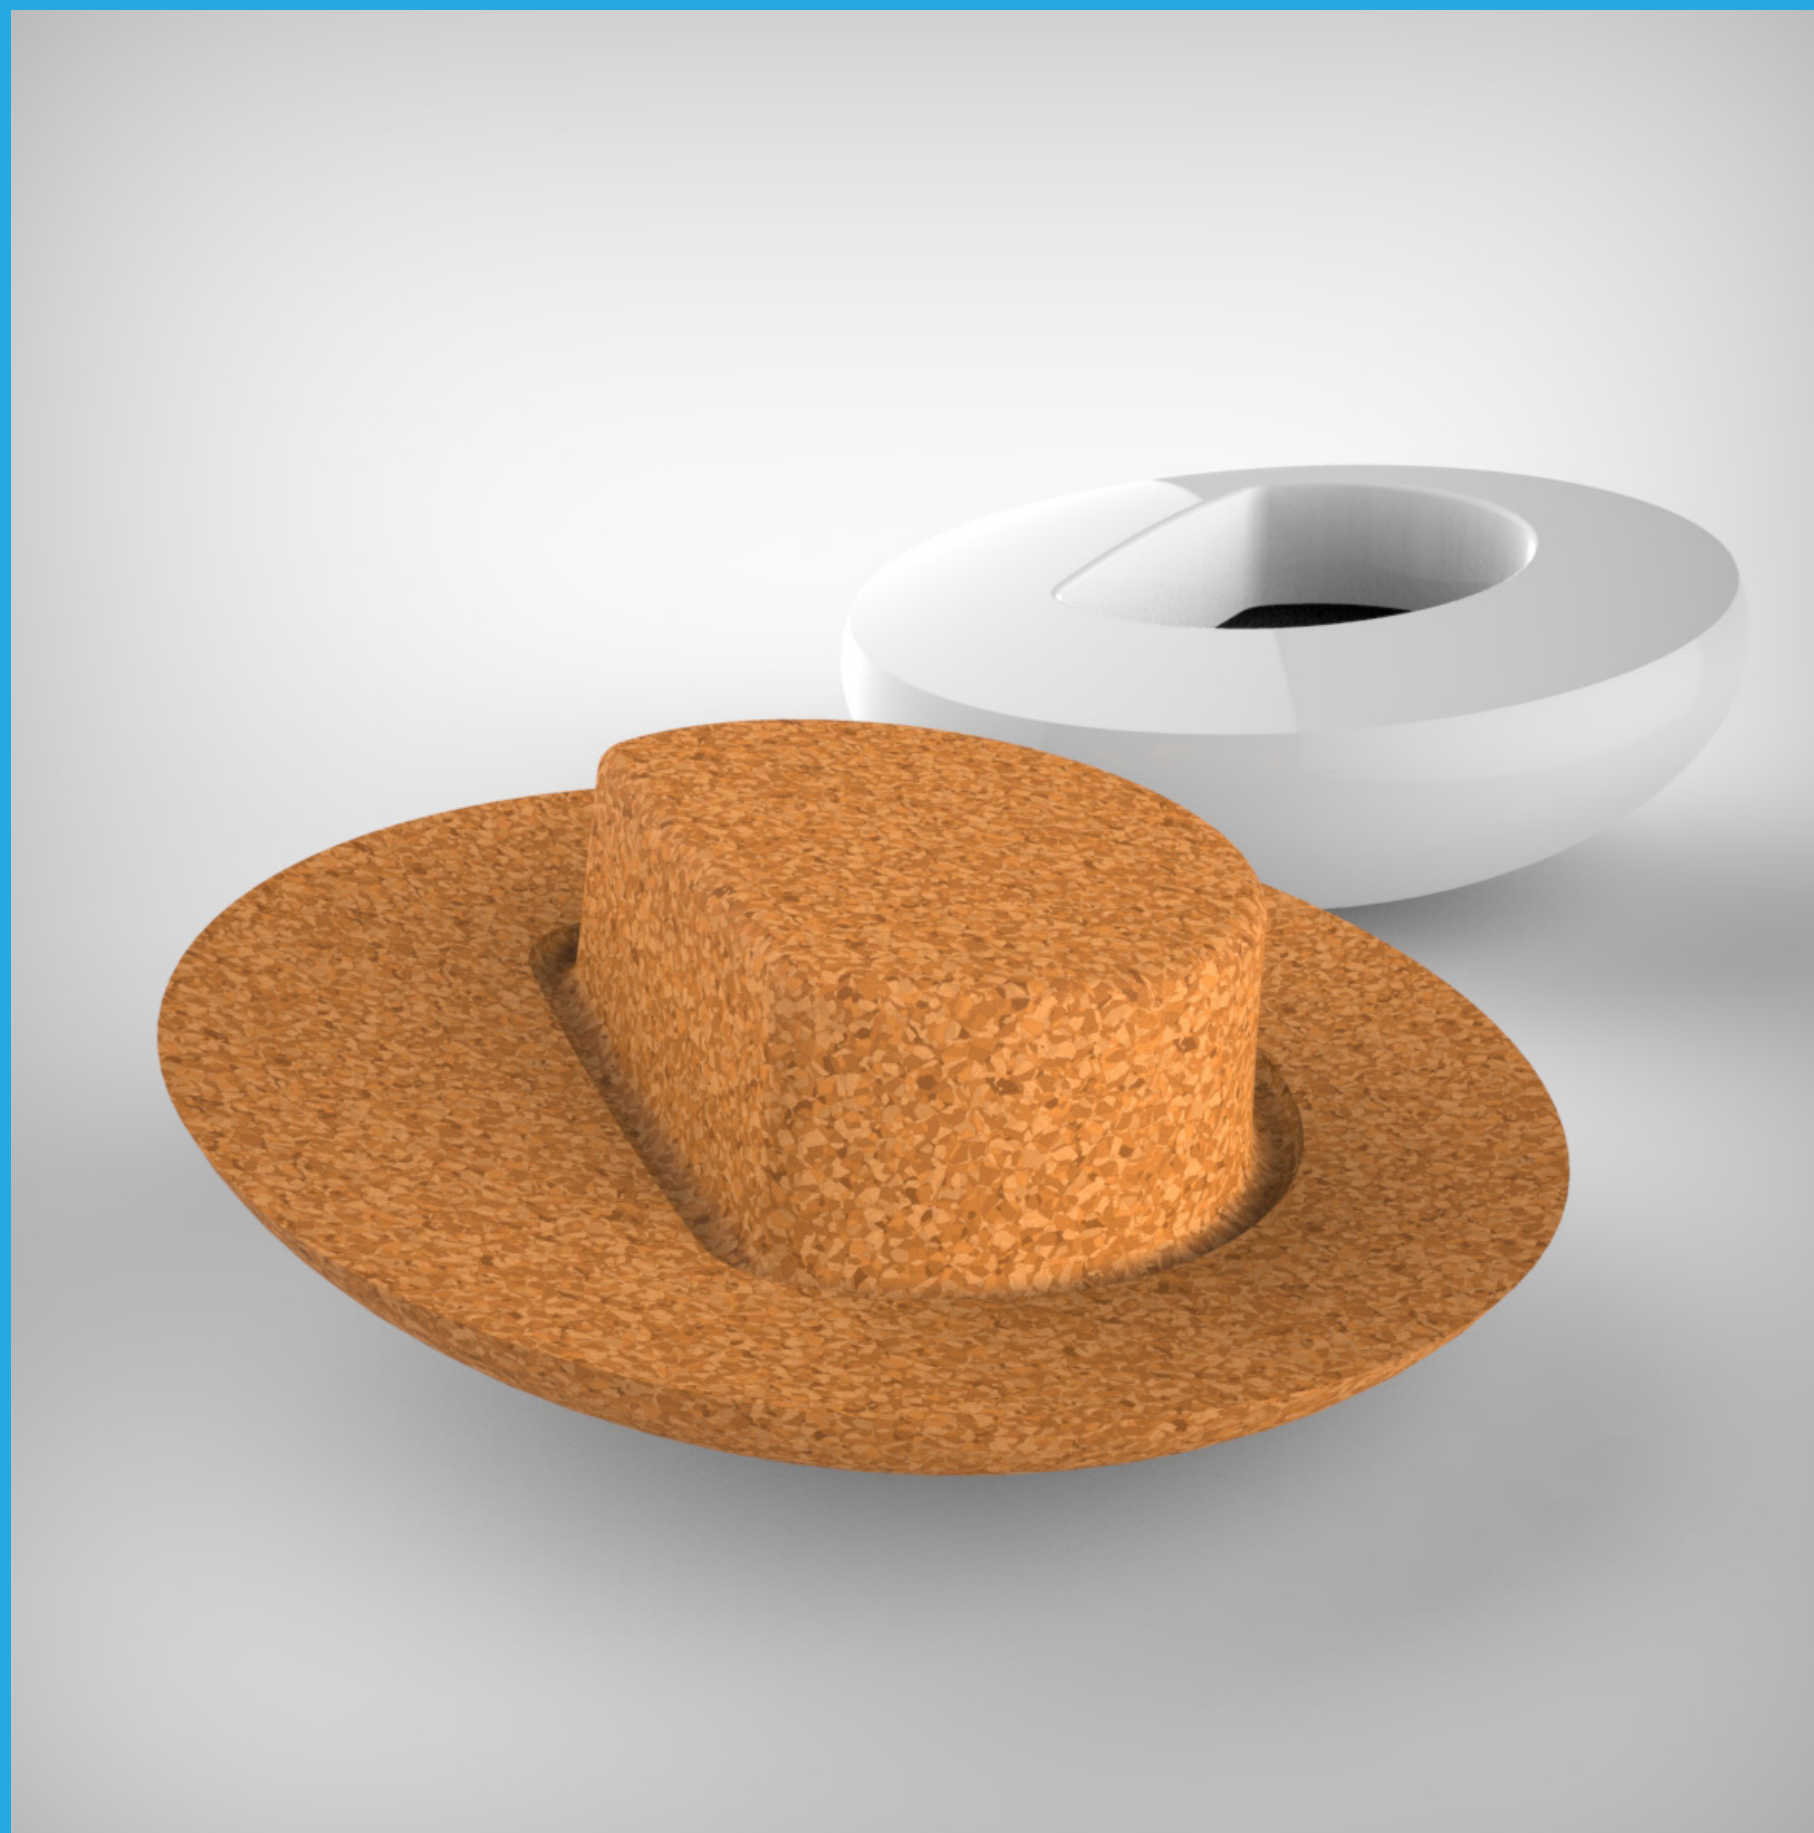

golden ratio number sequence (1.6180339887)

process:
surface deformation (parametric design)
obtaining geometry with system of mathematical rules

differentiation:
salt (crystal surface) opening \varnothing 3mm
pepper (smooth surface) opening \varnothing 2mm

materials:
porcelain + cork (humid regulation)
misalignment of opening (golden ratio sequence)
cutted conic cap (golden ratio) with protecting notch
